Objective

A career in interactive media, where I can apply my talents as a designer/developer. Blending form, function, to create new media solutions that meet the exact needs of the client. Riding the next wave of web development, as the boundaries continue to expand.

Skills

Graphic Design - Proficient with design software (Photoshop, Illustrator, Dreamweaver, Flash) on both PC and Mac platforms.

Technical - Experience with server-/client-side scripting languages. Writing, testing and debugging (ActionScript, JavaScript, HTML, PHP, ASP).

Professional - I have good people skills, work well in a team environment, on my own, or as a leader. I understand the details and their significance relative to the greater goal(s). Goal oriented and focused.

Experience

Creative Age Publications (Freelance), Van Nuys, CA (2004 - present) Assist new media department with updates, banners, forms, and Flash oriented promotions for the web sites that support their 6 monthly trade publications.

Chumley design + development, Santa Monica, CA (2002 - present) Web site design studio, where I build web sites, that create a successful web presence for my clients.

You Name It Creative Services, Santa Monica, CA (1996 - 2002) Operating a small design studio, providing a wide range of creative services including: Logo design; and Illustration; for a diverse client base in clothing, publishing, and advertising industries.

Organized Sports Inc., Los Angeles, CA (1992 - 1996) Art Director, screen printing operation that was California's largest sportswear provider for high schools and middle schools. Responsibilities included: Personnel management; Scheduling; Design and producing finished art. I continue to work with OSI on a contract basis

Suntex Inc., Indianapolis, In. (1987 - 1991) Assistant Art Director, design and production of retail sportswear designs for collegiate market.

Education

Santa Monica College, Academy of Entertainment & Technology (2001-2003) Interactive Media program Level 2, and Computer Sciences.

Indiana University, Purdue University at Indianapolis (1982 - 1984) Visual communications and general studies

Achievements

Producer, on redesign of Academy of Entertainment & Technology's web site. Managed fellow students, researched the needs of the site, and influenced the overall design. Result was an entirely new look, improved usability, and considerably more content, resources, and a gallery. Site is currently in use.
